### **Demo:** How does it work?

alison@castlekane.com

In a mature, competitive market, providers are asking:

How can we...

- 1. Maintain a competitive advantage?
- 2. Control costs of materials and leverage technology in cost-efficient ways?
- 3. Provide digital content without heavy investment or product development?
- 4. Meet student expectations of improving quickly – inside the classroom and 'on-the-go'?

• We work on the basis that branding our system and content to your organisation attracts ZERO cost.

• Your students can access the courses and system on an 'all you can eat' basis for 6 months for £15 per student.

• You can restructure content into mini-courses as required, and choose the content that you wish to provide to your students – like a menu.

• You are only charged when a student log in is generated by your staff/school – there is no upfront purchasing of licences or access codes.
