Proposed membership fees for 2027

The English UK membership fee has two components: a basic and a supplementary subscription. The total fee depends on the number of student weeks taught by each member.

We include part-time students when calculating fees. A part-time student is one who receives fewer than 10 hours of ELT tuition a week. Each part-time student counts as 0.5 student weeks.

Basic subscriptions

The proposed basic subscription fee for 2027 is £1,807.

Very small centres will pay a reduced rate, as shown below.

No. of student weeks	2026 rate	Proposed rate for 2027 (+3%)
Under 250	£1,017	£1,048
250-500	£1,308	£1,347
501+	£1,754	£1,807

Supplementary subscriptions

Members also pay a supplementary subscription based on the number of student weeks they teach. We will confirm your 2027 band after you submit your 2026 student data.

Group subscriptions

Groups of accredited centres under the same ownership receive one invoice for their combined basic subscriptions and one for their combined supplementary subscriptions.

For 2027, the group subscription is:

- £1,807 for the first centre
- £1,626 for each additional centre (for example, £3,433 for a group of two centres)
- A supplementary subscription based on the total number of the student weeks taught across all centres in the group (see bands above)
